

# NOVA GAP SEALER (GS) DOCK SHELTER

## COMPETITIVE PRODUCT COMPARISON

### FEATURES AND BENEFITS

- Designed for doors 12 x 12-feet and higher
- Flexible side pads absorb impacts
- Foam sides prevent unit and building damage from off-center trailers
- Rubber trim seals air and light gaps from swing door trailers
- Head and side curtains provide wrap-around protection
- Provides full access to trailers
- Minimizes pressure on building walls
- Pressure-treated, kiln-dried wood frame
- Top fiberglass panel
- Corner wear pleats are standard
- Vinyl-covered foam draft pads
- 24-inch shelter projection
- Heavy-duty galvanized mounting hardware
- Standard 15-inch yellow guide stripes
- All sew lines are lock-stitched and reinforced with UV-resistant thread

**SUPERIOR GAP HOOK DESIGN:** Unlike competitor models that use brittle, hard plastic J-hooks, the NOVA gap-sealing hook is made of durable rubber for flexibility with an exclusive round nodule that grips onto the trailer and provides a stronger hold.

**GREATEST SIZE OPTIONS:** The NOVA GS Series Dock Shelter is designed to fit door openings from 8 x 8-feet up to 12 x 12-feet.

		Up to 8'-0"	Up to 9'-0"	Up to 10'-0"	Up to 11'-0"	Up to 12'-0"
Door Width						

**MADE TO WITHSTAND IMPACTS:** The GS shelter has foam side pads that easily bend and compress out of the way of off-center trailers to prevent unit and building damage, and side curtains attach with Velcro® to eliminate dock downtime.

Rubber trim seals hinges on swing door trailers to block air and light gaps
