

NOVA NHS HYDRAULIC DOCK LEVELER

COMPETITIVE PRODUCT COMPARISON

FEATURES AND BENEFITS

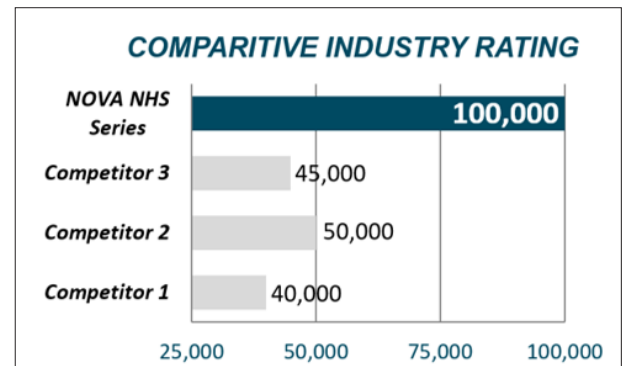

- Capacities range from 25,000 to 100,000-pounds
- Easy push-button activation
- Fully hydraulic deck and lip
- Velocity fuse stops free-fall situations within 3-inches
- Subframe design allows easy pit cleaning
- Provides full float at all positions
- Four-way high tensile A572 steel
- Diamond safety tread plate
- 50,000 PSI minimum yield
- Lip is fully yieldable if impacted
- Working range is 12-inches above/below dock
- Lip keepers for cross-traffic support and added security
- Includes telescoping toe guards
- Full-width rear hinge
- 5-year warranty

GREATEST CAPACITY: The NHS Hydraulic Dock Leveler is available in capacities ranging from 25,000 to 100,000-pounds.

MORE EFFICIENT HYDRAULICS: Dual port cylinders allow the hydraulic fluid to travel in both directions, creating a faster lift while costing less to operate and utilizing a smaller pump, motor and tank.

REINFORCED DESIGN: Unlike our competitors who use flat stock and light-duty materials, NOVA uses a 4-inch structural C-channel and a full-width rear hinge mounted in compression with a 1-inch diameter steel rod.

LARGEST SIZE RANGE: Nine size options available to accommodate most applications.
